REQUEST FOR ADDITIONAL INFORMATION
REGARDING IPE REPORT
GENERIC LETTER 88-20 (LTR 880020)

Reference: Jacob I. Zimmerman letter to Gary J. Taylor dated January 11, 1996
John L. Skoids letter to Document Control desk dated June 18, 1993

The NRC letter of January 11, 1996 requested additional information regarding the V. C. Summer Nuclear Station (VCSNS) IPE Report submitted June 18, 1993 and requested that the additional information be provided within 60 days of the letter issuance (March 11, 1996).

South Carolina Electric and Gas Company (SCE&G) has determined that due to the nature of the information requested, additional time is needed to compile, analyze, and submit a comprehensive response. Mr. Dan Gatlin and Mr. Jim Turkett of SCE&G discussed this matter with Mr. Jacob Zimmerman of the NRC on February 8, 1996 and obtained verbal agreement to extend the date for receipt of the requested information by 30 days. This extension will allow SCE&G personnel sufficient time to work with our PSA vendors (Westinghouse and Fauske and Associates) to obtain some of the needed information to provide a complete response. This letter is submitted to acknowledge this verbal agreement.

SCE&G will provide response to this Request for Additional Information by April 10, 1996.

These statements and matters set forth herein are true and correct to the best of my knowledge, information and belief.
