Mr. Carlton Kammerer
Nuclear Regulatory Commission
1717 H Street, N.W.
Washington, D.C. 20555

Dear Mr. Kammerer:

Enclosed is correspondence from Ann Hubbel of Ypsilanti, Michigan concerning the Fermi II nuclear power plant. I would appreciate a response to her concerns. Please address any correspondence to Allie Giles of my staff.

Thank you for your assistance.

Sincerely,

Carl Levin

Dear Ben. Levin,

Congratulations on your reelection. I'm sure
'it was deserved.

Now for the first request of the New
Year. Can anything be done to prevent the
opening of the Fermi II ~~and~~ nuclear plant
at Monroe? or is it too late?? Are we
inhabitants of this area in S. E. Mich. just to
be the sitting ducks in another rash leap
into nuclear ^{power} that is not even needed in
S. E. Mich.? As the enclosed letter states,
the increase in cost of electricity may be
only the best of our worries.

Fermi II has an awful history of major
safety defects. Why should we trust it
this time around? I demonstrated with other
concerned citizens once. But it's awfully
cold to demonstrate in Jan. + Feb.!

Is there any alternative to that damn
plant - since this damn Admin. doesn't
give a fig for anything important or of real
public value.

Sincerely,
Alan Fobbell
