NUCLEAR LICENSING & SAFETY DEPARTMENT

U. S. Nuclear Regulatory Commission  
Office of Nuclear Reactor Regulation  
Washington, D. C. 20555

Attention: Mr. D. H. Beckham, Chief  
Operator Licensing Branch

Dear Mr. Beckham:

SUBJECT: Grand Gulf Nuclear Station  
Unit 1  
Docket No. 50-416  
License No. NPF-29  
File: 0260/L-860.0  
Operator Licensing Examinations,  
Generic Letter 85-04  
AECM-85/0072

By letter dated January 29, 1985, Mr. D. G. Eisenhower requested that Mississippi Power & Light Company (MP&L) provide an estimate of our needs for operator licensing examinations. The information was to be provided for the remainder of fiscal year (FY) 1985 and for FY1986, FY1987 and FY1988. Additionally, Mr. Eisenhower's letter requested that requalification examination schedules be provided for the same period.

In accordance with Mr. Eisenhower's request, the attachments to this letter provide estimates of MP&L's Grand Gulf Nuclear Station (GGNS) Unit 1 operator licensing examination and requalification examination needs for the requested years. In light of the fact that no licensing action is expected to occur for several years on GGNS Unit 2, it is MP&L's opinion that meaningful estimates of operator licensing or requalification examination needs cannot be provided at this time.

If you have any questions or require further information, please contact this office.

Yours truly,

L. F. Dale  
Director

Please indicate initial cold license examinations by placing an asterisk (\*) by the date. Please indicate examinations intended to extend an operator's license to a second or subsequent unit with two asterisks (\*\*) (e.g., Unit One is in operation and Unit Two is approaching fuel load). Three RO candidates with no previous license are to be examined on both Units One and Two and five RO candidates with licenses on Unit One are to be examined to extend their licenses to Unit Two. Indicate (2/15/85, RO 3,5\*\*).
