Docket No. 50-267

SUBJECT: **Decommissioning Technical Specifications**

REFERENCE: NRC Letter, Pittiglio to Crawford, dated June 30, 1995 (G-95116)

Dear Mr. Weber:

In the referenced letter, the NRC issued Amendment 88 to the Fort St. Vrain Decommissioning Technical Specifications (DTS). The referenced letter transmitted eleven pages of the DTS that the NRC had re-typed to reflect the changes proposed by Public Service Company of Colorado (PSCo); however, the re-typed pages included a few minor inconsistencies from the pages submitted by PSCo. As discussed with Mr. Clayton Pittiglio of your staff, this letter transmits for your information a corrected version of the Fort St. Vrain Decommissioning Technical Specifications, updated to reflect all approved amendments.

If you have any questions regarding this information, please contact Mr. M. H. Holmes at (303) 620-1701.

Sincerely,

Frederick J. Borst
