J. DeVincentis to T. T. Martin

Subject: Clarification of Response to Combined Inspection  
Nos. 50-443/84-12 and 50-444/84-06

Dear Sir:

We feel it necessary to clarify two statements contained in the  
referenced response to Combined Inspection Nos. 50-443/84-12 and 50-444/84-06  
as follows:

1. In the original response, it was stated that P-H had reviewed a  
sample of completed weld process sheets and found one similar  
discrepancy on the same process sheet which was the subject of the  
original NCR. Further investigation has revealed that the  
additional invalid signature was on the back of a process sheet for  
a different weld which was part of the same work package.
2. The original response stated that as a remedial action, the weld was  
radiographed and found satisfactory. It was not our intention to  
infer that the radiography performed was in addition to Code  
required radiography. Code required radiography was performed on

8412130140 841207

Page 2

both welds in question resulting in one weld being found acceptable and the second requiring repairs. As a result of the Code required radiography performed subsequent to the repair, the weld was found to be acceptable.

Very truly yours,

A handwritten signature in cursive script, appearing to read "John DeVincentis".
