MONTHLY OPERATING REPORT

Dear Mr. DeYoung:

In accordance with Technical Specification 6.9.1.6 for the Brunswick Steam Electric Plant, Units 1 and 2, Carolina Power & Light Company herewith submits the report of operating statistics and shutdown experience for the month of October 1984. As stated in the September report, it was found that the Gross Thermal Energy Gen. (line 16) is incorrect due to an apparent software problem. The error has been found and it does not affect other parameters on the report. A corrected report will be forwarded to you upon its resolution. This should occur in time for the November 1984 report.

Very truly yours,

C. R. Dietz, General Manager
Brunswick Steam Electric Plant
