RE: Nine Mile Point Unit 1  
Docket No. 50-220  
DPR-63

Nine Mile Point Unit 2  
Docket No. 50-410  
NPF-69

Gentlemen:

Transmitted herewith, in accordance with 10CFR50.54(p), is Issue 4, Revision 4 of the Nine Mile Point Nuclear Station Physical Security Plan. This revision fully implements the vehicle control measures required by 10CFR73.55(c)(7) and (8). We have reviewed the changes embodied in Issue 4, Revision 4 and determined that they do not reduce the effectiveness of the Plan or the overall Nuclear Security Program for Nine Mile Point Nuclear Station.

With the implementation of this revision of the Physical Security Plan, those portions of the Safeguards Contingency Plan incorporated in response to Generic Letter 89-07, "Power Reactor Safeguards Contingency Planning for Surface Vehicle Bombs" are considered superseded. We will be removing those portions from the Safeguards Contingency Plan in a revision planned for the near future.

A "Summary of Changes" for issue 4, Revision 4 has been provided to facilitate NRC review.

Sincerely,

Howard G. Christensen  
Manager - Nuclear Security
