Gentlemen:

UPDATED FINAL SAFETY ANALYSIS REPORT  
ERRATA TO REVISION 7  
HOPE CREEK GENERATING STATION  
DOCKET NO. 50-354

Revision 7 to the Hope Creek Updated Final Safety Analysis Report (UFSAR) was submitted under letter LR-N95247 dated December 28, 1995. Public Service Electric and Gas (PSE&G) is issuing this errata to Revision 7 to correct problems discovered since the submittal.

This errata corrects the following problems: several pages printed on the incorrect side of the page causing page insertion problems, poor legibility of tables and figures, missing and mislocated change bar indicators, typographical errors and omissions, and provision of the master table of contents for only one of the twenty two UFSAR volumes.

Overall, the technical impact of these changes has been assessed to be minimal. PSE&G has taken actions to minimize such occurrences in the future.

Should there be any questions with regard to this submittal, please do not hesitate to contact us.

Sincerely,
