Subject: Docket No. 50-432: Wolf Creek Nuclear Operating
Corporation Incident Investigation Team Report 96-002

Gentlemen:

Attached is a copy of Wolf Creek Nuclear Operating Corporation (WCNOC) Incident Investigation Team (IIT) Report 96-002, dated February 28, 1996, "Plant Shutdown Due To Circulating Water And Essential Service Water Intake Icing." This report summarizes WCNOC's investigation activities and root cause determinations related to the icing event. The appendixes referenced in the report are not attached. The appendixes are being retained on site and are available for review by members of the Nuclear Regulatory Commission (NRC). The report signature page, index, and section I and VII (pages 1, 67, and 68) were revised. This revision deleted names of individual's otherwise documented in the original report. Further complete copies of the report (with all attachments) were given to the NRC Resident Inspectors and selected members of NRC Regional and Headquarters Management.

Please place this report in the Public Document Room.

Very truly yours,

Otto L. Maynard
