Mr. Robert D. Martin, Regional Administrator  
U. S. Nuclear Regulatory Commission  
Region IV, Office of Inspection and Enforcement  
611 Ryan Plaza Drive, Suite 1000  
Arlington, Texas 76011

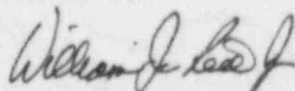

Dear Mr. Martin:

River Bend Station Unit 1  
Docket No. 50-458  
Final Report/DR-126

Gulf States Utilities (GSU) has completed its evaluation of DR-126 concerning apparent discrepancies between the as-built wiring and the wiring diagrams of Class 1E 480-V load centers supplied by Powell Electric. The as-built drawings which were used in identifying the apparent discrepancies were not the final certified drawings. There were no differences from the certified final as-built drawings to the delivered load centers and therefore no deviation from the performance specifications existed. GSU has therefore concluded that this condition is not reportable under 10CFR50.55(e).

Sincerely,

  
for J. E. Booker  
Manager-Engineering,  
Nuclear Fuels & Licensing  
River Bend Nuclear Group
