COMANCHE PEAK STEAM ELECTRIC STATION
PREOPERATIONAL TESTING ACTIVITIES
QA FILE: CP-84-24, SDAR-148
FILE NO.: 10110

Dear Mr. Hunter:

On August 29, 1984 we verbally notified your Mr. D. Hunnicutt of an incident regarding preoperational testing activities at CPSES, the details of which were made available to attorneys representing Texas Utilities Generating Company in our licensing hearings. Evidence of the incident indicated that a person identified as "Witness F" intentionally misled a QC Surveillance Specialist into signing off on a preoperational test. We have submitted interim reports logged TXX-4319 and TXX-4345 dated September 28, 1984 and October 29, 1984, respectively.

We have completed our investigation and concluded that the matter is not reportable under 10CFR50.55(e). Records supporting this determination are available for your inspector's review at the CPSES site.

Very truly yours,

BRC:tlg
