Corrections to Revision No. 22 of the Emergency Plan

Gentlemen:

Attached are corrected pages for Revision No. 22 to the Limerick Generating Station (LGS), Units 1 and 2, Emergency Plan (EP). These corrected pages are being submitted to correct administrative errors identified in the Revision No. 22 package submitted by our letter dated April 15, 1992. These errors involve a missing page from Appendix J and an incorrect reference to a revision number associated with information contained in Appendix C.

Revision No. 22 of the LGS EP was submitted in accordance with the requirements of 10 CFR 50.54(q) and 10 CFR 50.4(b)(5). The revision reflected changes to the Emergency Response Organization in support of activating the common Emergency Operations Facility (EOF) and Emergency News Center (ENC) for LGS and Peach Bottom Atomic Power Station.

If you have any questions or require additional information, please do not hesitate to contact us.

Very truly yours,
