Response to Administrative Letter 96-01,  
"Operator Licensing National Examination Schedule"

Gentlemen:

NRC Administrative Letter 96-01, "Operator Licensing National Examination Schedule," dated January 9, 1996, requested licensees to voluntarily submit information pertaining to previous estimates of the number of candidates to be tested for operator licenses in fiscal years (FYs) 1996 through 1999. Attached to this letter are the completed forms (i.e., NRC Form 536, "Operator Licensing Examination Data") for Limerick Generating Station (LGS), Units 1 and 2, and Peach Bottom Atomic Power Station (PBAPS), Units 2 and 3. Attachment 1 contains the operator licensing examination data for LGS, and Attachment 2 contains the data for PBAPS.

During each of the NRC FYs 96 and 98, a total of five (5) candidates will take a dual site Limited Senior Reactor Operator (LSRO) initial license examination as indicated on the attached NRC Form 536. The schedule for the indicated exam week consists of conducting the combined written exam and a portion of the operating exam at LGS during the first part of the week and completing the operating exam at PBAPS during the remainder of the week.

If you have any questions, please do not hesitate to contact us.

Very truly yours,

*G. A. Hunger, Jr.*  
G. A. Hunger, Jr.  
Director - Licensing

OPERATOR LICENSING  
EXAMINATION DATA

Estimated burden for response to comply with the mandatory regulatory collection request: 1 hour. This information is requested by NRC to plan, develop and maintain the operator licensing examination. Forward comments regarding burden estimate to the Information and Records Management Branch (74 F33, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001), and to the Paperwork Reduction Project (3150-0131), Office of Management and Budget, Washington, DC 20503. NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.
