Mr. Joseph Felton
Freedom of Information Officer
Office of Administration
Nuclear Regulatory Commission
Washington, D.C. 20555

FREEDOM OF INFORMATION
ACT REQUEST
FOIA-84-447
Rec'd 6-5-84

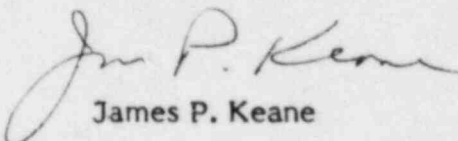

Dear Mr. Felton:

Pursuant to the Freedom of Information Act we request copies of any and all citations, reports, inspections, status reports, and any other notes, correspondence or memorandum including final reports issued by the commission with respect to the nuclear power plant operated by the Boston Edison Company in Plymouth Massachusetts. We believe the popular name for the facility is the Pilgrim I Nuclear Power Station, and we are particularly interested in any investigation or violations ascribable to the Boston Edison Company or its subcontractors in the operation of the plant with particular reference to the possible over radiation of employees from the nuclear power source. The period we are interested in is during the peirod 1976 to and including 1980. If any reports are available which were issued after the aforementioned dates, but concern the period 1977 to and including 1980, would you also include those in your response.

Further, we would appreciate an index or table of contents listing each and every element of correspondence, reports, recommendations, citations or other matters during the period 1977 to and including 1980 so that we may pinpoint better our inquiry.

If there is any charge associated with this undertaking, would you kindly invoice our office which will be honored by return mail.

Very truly yours,
MADAN AND MADAN

James P. Keane
