## General Comment

Attorney General Bill Barr has demonstrated that he doesn't understand the constitution, separation of powers, statutory language, etc. Now he's on Fox showing off his vast ignorance about public health:

"When this period of time, at the end of April, expires, I think we have to allow people to adapt more than we have, and not just tell people to go home and hide under their bed... I think we have to consider alternative ways of protecting people."

"As soon as he [Trump] said something positive about it, the media has been on a jihad to discredit the drug. It's quite strange."

Be safe, people. Don't take medical advice from Bill Barr. Listen instead to Dr. Kushner.
