Dear John:

Enclosed are photographs taken at Cooper Nuclear Station during our recent flooding problem. These photos were taken at a time near the peak of the flood.

As you can see our access road to the plant through NEMAHA was not affected although the road just out of Brownville was flooded.

I thought these might be of interest. They also show some of the construction going on in preparation for the fall 1984 outage.

Sincerely,

L. G. Kuncel
Assistant General Manager - Nuclear
