Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Byron Generating Station Units 1 and 2
Braidwood Generating Station Units 1 and 2
Final Safety Analysis Report Revisions
NRC Docket Nos. 50-454/455 and 50-456/457

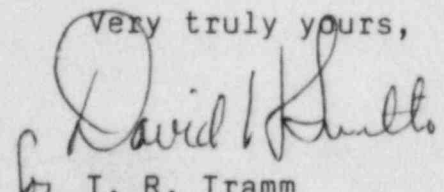

Dear Mr. Denton:

This letter provides advance copies of Amendment 46 to the Byron/Braidwood FSAR. Printed copies will be submitted within a few days in the regular manner. Advance copies are provided to permit early NRC review.

Attachment A to this letter describes the changes being made in Amendment 46 and the reasons for those changes. In many cases these changes are being made to fulfill commitments made to the NRC. Many of the changes are editorial or typographical. A few changes involve new information. Detailed NRC review will probably not be necessary for the bulk of this material. If additional explanation is needed for any of these changes, please contact this office.

One signed original and fifteen copies of this letter, the attachment, and the FSAR pages are provided for NRC review.

Very truly yours,

for T. R. Tramm
Nuclear Licensing Administrator
