OFFICE OF SECRETARY  
DOCKETING SERVICE

SUPPLEMENTAL STATUS REPORT OF INTERVENORS  
BRIDGET LITTLE ROREM, ET AL.

Intervenors Bridget Little Rorem, et al., by their under-  
signed counsel, hereby submit the following supplemental status  
report pursuant to the Board's Order of February 6, 1985:

1. With respect to previously admitted contentions, inter-  
venors agree to the schedule and, as stipulated, the revised  
wording of contentions, in the form to be submitted to the Board  
by NRC Staff counsel.

2. In addition, intervenors Rorem et al. are preparing a  
motion, for submission within one week of this date, for leave to  
file additional (late-filed) contentions. At least some additional  
contentions will be based directly on the NRC CAT Team Inspection  
50-456/84-44, 50-457/84-40, transmitted from the NRC to Edison by  
letter dated February 20, 1985. See generally Duke Power Co.  
(Catawba), 18 NRC 1041 (1983). This detailed and voluminous  
report was received by intervenors within the last week. Inter-  
venors' motion will propose a schedule for litigation of such  
contentions which is consistent with Edison's contemplated fuel

load dates (even though those dates are unduly optimistic and unlikely to be met, as will be set forth in the motion).
