Dear Madam:

In Reference 1, the NRC requested payment of \$5200.00 for operating license amendment application fees associated with two Technical Specification changes. These fees were requested by you as a result of a review conducted by the Commission's Division of Licensing. An additional Class III fee (\$4,000) was requested for changes associated with the Control Rod Drive System. A Class II fee (\$1,200) was requested for changes associated with the Standby Gas Treatment System.

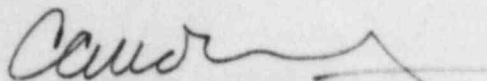

Enclosed is a check in the amount of \$5,200.00 as payment for these fees. The Authority pays these fees under protest pending a final determination of the legality of the fee schedule.
