UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

April 15, 2020

Mr. Michael J. Mosley
Secured Transportation Services
90 W. Moreno Street
Buford, GA 30518

SUBJECT: ROUTE APPROVAL APPLICATION (U.S. NUCLEAR REGULATORY COMMISSION ROUTE NO. 259), DOCKET NUMBER: 070-07011

Dear Mr. Mosley:

I am responding to your letter dated December 4, 2019, which requested that the U.S. Nuclear Regulatory Commission (NRC) approve Truck Route No. 259. Route No. 259 is used for transporting spent nuclear fuel.

The NRC has reviewed your application and concluded that the information you provided dated December 4, 2019, with supplemental information provided on April 7, 2020, satisfies the requirements of Title 10 of the *Code of Federal Regulations,* Section 73.37. This letter constitutes approval upon updating the Governor's Designee phone number for the state of Utah to include "801-536-0200" and strike out "801-536-0222 (24 hour)" since this is the fax number listed at the NRC website https://scp.nrc.gov/special/designee.pdf. The approved route is now designated as Truck Route No. 259 and will expire April 30, 2025. The NRC expects your periodic review and update of the emergency telephone numbers associated with this route. Changes to emergency contact numbers do not qualify as a route deviation or change.

If you have questions on this route approval or require additional information please contact Mr. Alex Sapountzis at (301) 287-3660, or via e-mail at Alexander.Sapountzis@nrc.gov.

Sincerely,

/RA/

Alison Rivera, Chief
Materials Security Branch
Division of Physical and Cyber Security Policy
Office of Nuclear Security and Incident Response
