Gentlemen:

ULNRC- 2699

DOCKET NUMBER 50-483
CALLAWAY PLANT
REVISION TO TECHNICAL SPECIFICATION 3/4.6.1.2
CONTAINMENT LEAKAGE
Reference: ULNRC-2378, dated March 15, 1991

The referenced letter transmitted an amendment application to revise Technical Specifications 3/4.6.1.1 and 3/4.6.1.2 and a partial exemption request from the testing requirements of 10CFR50, Appendix J.

The purpose of this transmittal is to submit a revision to the Bases for Technical Specification 3/4.6.1.2 to add clarification concerning acceptance criteria for the "as found" and "as left" conditions of the containment when performing a Type A test. This additional information is submitted based on our conversations with the Staff to clarify our proposed revision to Surveillance Requirement 4.6.1.2b. The conclusions of the complete Safety Evaluation and Significant Hazards Evaluation transmitted by Reference ULNRC-2378 remain valid.

Very truly yours,

Donald F. Schnell
