(b) USNRC Letter, dated January 4, 1985, regarding Welding of  
Pressurizer Surge Line, Richard W. Starostecki to  
Mr. Harrison

Dear Sir:

Reference (b) identified a potential concern with the amount of cold pull  
used for alignment of the pressurizer surge line and requested that, within  
ten days, we respond with plans and schedule for review of this issue. The  
following is provided as our initial response to this issue.

We plan to thoroughly review the validity of this concern using the  
Allegation Resolution Program recently initiated at Seabrook Station.  
Concurrently, we will be investigating the pressurizer surge line to determine  
if it should have been included in our final 10CFR50.55(e) report regarding  
Cold Pulling of Pipe, dated June 11, 1984.

We will provide the results of our review by February 22, 1985.

Very truly yours,

  
John DeVincentis, Director  
Engineering and Licensing
