MEMORANDUM FOR: Edward L. Jordan
Director
Division of Emergency Preparedness
and Engineering Response
Office of Inspection and Enforcement
U.S. Nuclear Regulatory Commission

FROM: *[Signature]* Richard W. Krimm
Assistant Associate Director
Office of Natural and Technological
Hazards Programs

SUBJECT: Exercise Report for the November 14, 1984, Exercise
of Offsite Radiological Emergency Preparedness (REP)
Plans for the Comanche Peak Steam Electric Station

Attached are two copies of the Exercise Report for the November 14, 1984, full-participation joint exercise of the offsite REP plans for the Comanche Peak Steam Electric Station. The exercise report dated January 28, 1985, was prepared by the Region VI staff of the Federal Emergency Management Agency (FEMA).

There were two Category B deficiencies identified at the exercise. A schedule of corrective actions has been provided by the State of Texas and is contained in the exercise report. These deficiencies did not detract from the overall capability demonstrated by the State of Texas and Hood and Somervell Counties to protect the health and safety of the public in the vicinity of the Comanche Peak Steam Electric Station.

If you have any questions, please contact Mr. Robert S. Wilkerson, Chief, Technological Hazards Division, at 287-0200.
