Docket No. 50-412
Supplement No. 2 to USNRC IE Inspection Report No. 50-412/82-01

Gentlemen:

The purpose of this letter is to amend a previously submitted letter from Mr. E. J. Woolever to Mr. R. W. Starostecki. On March 14, 1984, in letter 2NRC-4-027, Duquesne Light Company erroneously stated that the site review had identified 752 ASME III Class 3 pipe-to-fitting, fitting-to-valve, and pipe-to-valve welds requiring reinspection. The correct number of welds affected is 729.
