Subject: Docket No. 50-482: Annual Radiological Environmental
Operating Report

Gentlemen:

Enclosed is the Annual Radiological Environmental Operating Report which is being submitted pursuant to Wolf Creek Generating Station (WCGS) Facility Technical Specification 6.9.1.6. This report covers the operating of WCGS for the period of January 1, 1995 to December 31, 1995. Also enclosed is a revision to the 1994 Annual Radiological Environmental Operating Report. The revision reflects less than symbols which were inadvertently omitted from the last two columns in Table 9 on page 31. This error did not affect the conclusions drawn in the report.

If you should have any questions regarding this submittal, please contact me at (316) 364-8831, extension 4450, or Mike Lindsay at extension 8760.

Very truly yours,

Otto L. Maynard
