Subject: McGuire Nuclear Station, Unit 2,
Docket No. 50-370
Supplement to Replacement SG Proposed TS Amendment

My letter dated March 15, 1996, Duke Power Company submitted responses to the NRC Staff's Request for Additional Information. Subsequent review of the typed copies of pages B3/4 4-5 and 5-7 identified minor errors. On page B3/4 4-5, a change bar was omitted from the change to the steam generator leakage rate. Page 5-7 contained an unrelated and unintended change to Section 5.3.2. The hand marked copies of the respective pages were correct as previously submitted. No errors were identified in the submitted Catawba Unit 1 or McGuire Unit 1 pages.

If additional information is required, please call Robert Sharpe at (704) 382-0956.

Very truly yours,
