Dear Mr. Denton,

I urge you to revoke PE's Limerick low-power operating license.
From all I have read, Limerick is not functioning safely. It seems to me
that if these reported deficiencies and operating errors are permitted
to go on, an accident similar to the one at TMI could occur.
Therefore I urge you to call for a hearing in accordance with the Code
and NRC regulations.
Frankly, I am scared to death!

Very sincerely,

Margaret Protassowsky
