SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)
DOCKET NOS. 50-445 AND 50-446
TRANSMITTAL OF CPSES EMERGENCY PLAN, REVISION 24

Gentlemen:

In accordance with 10CFR50.54(q), TU Electric herewith submits Revision 24 of the CPSES Emergency Plan (EP). The changes comprising Revision 24 were evaluated and determined to not decrease the effectiveness of the existing plan. The changes were made effective at CPSES on April 19, 1996.

Changes are indicated by a Revision 24 change bar. A detailed description, provided in the Attachment, discusses individual changes indicated by the change bar. The following is a general summary of the changes included in this revision to the CPSES Emergency Plan:

1. Revise the plan to update the description of the federal telephone communications link between CPSES and the NRC (describe the Federal Telephone System (FTS)) and delete Bethesda, Maryland as the specified location of the NRC Operations Center.
2. Revise the plan (Section 5) to update/change the description of the methods used to provide public education, distribute information to the public and coordinate/conduct news media/rumor control activities.
3. Revise the plan to delete reference to a statement that accountability may be performed "by identifying vacant positions in the badge storage racks".
4. Revise the plan to delete an unnecessary and redundant section (Section 1.2.5.5 "Emergency Response and Rescue Personnel") and update plant or emergency organization position titles.

DETAILED DESCRIPTION

Prefix Page (as amended) Figure	Group	Description	Page	3
1- 10	4	Update Figure 1.10 "Logistical Support Center". Update Figure updated to reflect current emergency organization positions and titles. Change Request Number EP - 96 - 2 Related SER : SSER : SER/SSER Impact N		
3- 1	4	Delete the specified location ("in Bethesda, Maryland") from the listing of item 3.1d, NRC Operations Center. Revision Specified location not correct and unnecessary to listed information. Change Request Number EP - 95 - 9 Related SER : SSER : SER/SSER Impact N		
4- 5	4	Revise Section 4.2 title to "Federal Telephone System" and revise/combine the text of 4.2 and 4.3 to describe the FTS, ENS and HPN. Renumber Sections 4.3 to 4.7 to new 4.3 to 4.6. Revision Change made to describe the Federal Telephone System (FTS) which is now installed at CPSES. Change Request Number EP - 95 - 9 Related SER : SSER : SER/SSER Impact N		
Table 4- 1	4	Delete "Bethesda" from the listing of the NRC Operations Center. Revision The specified location of "Bethesda" is not correct and is unnecessary to the listing for the NRC Operations Center. Change Request Number EP - 95 - 9 Related SER : SSER : SER/SSER Impact N		

CPSES - EMERGENCY PLAN

REVISION - 24

DETAILED DESCRIPTION

Prefix Page (as amended)	Group	Description	Page
5- 1	4	<p>Revise Sections 5.0 "Public Education and Information", 5.1 "Public Information Releases During Emergency Conditions", and 5.2 "Rumor Control".</p> <p>Revision</p> <p>Revised to update/change restrictive language to allow greater flexibility in the methods used to provide public education, distribute information to the public, and coordinate/conduct news media and rumor control activities.</p> <p>Change Request Number EP - 95 - 10</p> <p>Related SER : SSER : N</p> <p>SER/SSER Impact N</p>	4
7- 3	4	<p>Revise "Shift Supervisor" to "Shift Manager".</p> <p>Revision</p> <p>See justification for revised page 1-2.</p> <p>Change Request Number EP - 96 - 2</p> <p>Related SER : SSER : N</p> <p>SER/SSER Impact N</p>	
8- 3	4	<p>Revise Section 8.2 "Evacuation, Assembly and Accountability" to delete reference to the statement that accountability may be performed "by identifying vacant positions in the badge storage racks".</p> <p>Revision</p> <p>The subject badge racks were removed from the PAP and AAP as part of the implementation of the biometrics hand readers in association with the NRC approved exemption to 10CFR73.55(d)(5) which allowed individuals to take personal ID badges offsite. Initial Protected Area accountability will now only be performed using the Security Access Computer System. The Security Access Computer System is highly reliable due to its redundant systems composed of computers, UPS, batteries and availability to be supplied by the emergency Diesel Generators.</p> <p>Change Request Number EP - 96 - 1</p> <p>Related SER : SSER : N</p> <p>SER/SSER Impact N</p>
