NRC REVIEW OF ME-215 DOCUMENTATION

RECEIVED
SEP 24 1992
NRC
NUCLEAR REGULATORY COMMISSION

Reference: 1. CPSES-9222546 dated July 16, 1992
2. CPSES-9227365 dated August 25, 1992

Dear Mr. Walker:

Reference 1 transmitted the documentation related to Bechtel Computer Code ME-215 for submittal to the NRC. Reference 2 authorized the NRC to copy the copyright version of the documentation for their internal use as required during the review process. The purpose of this letter is to further clarify the authorization provided through reference 2.

Bechtel hereby authorizes the NRC to copy pages of the proprietary documents, ME-215 User and Theory Manual, as well as the validation manual when such copies are needed to support review and to aid preparation of the SER, copyright notwithstanding. Copies should be kept to a minimum and destroyed after they are no longer needed. Copies should be considered and treated the same as originals under proprietary treatment applied for in reference 1. This authorization is granted with the understanding that any collection of copied pages made from the documents by the NRC will bear the proprietary and copyright notices of the original documentation. This authorization applies to all ME-215 documentation transmitted through reference 1, unless terminated by Bechtel with appropriate written notice. Copy authorization for future revisions of these documents will be considered at the time of their submission.
