Attn: Document Control Desk

Dear Sirs:

This is a reply to the NRC Bulletin 92-02:
Safety Concerns Relating to "END OF LIFE" of Aging
Theratronics Teletherapy Units.

We have a single cobalt-60 teletherapy unit in
our department manufactured by Theratronics. It is
a model 780C (S/N:72) which was a new unit
installed by Theratronics in June of 1988. Due to
the model and age of our machine, we believe that
we are exempt from additional reporting
requirements of this bulletin.

Please advise.

Sincerely,

Suresh K. Agarwal, Ph.D.
Director
