Subject: Waterford 3 SES
Docket No. 50-382
License No. NPF-38
Response to Initial SALP Report for the Period of
May 1, 1991 through August 1, 1992

Gentlemen:

The purpose of this letter is to respond to the Initial Systematic Assessment of Licensee Performance (SALP) Report for Waterford 3 for the period of May 1, 1991, through August 1, 1992, which was transmitted in the NRC letter from J.L. Milhoan to R.P. Barkhurst, dated September 25, 1992.

Entergy Operations, Inc. recognizes the extensive effort given by the NRC in the overall performance assessment process and is pleased to achieve one of the best SALP scores in Region IV. We appreciate the positive comments given by the NRC in the October 27, 1992, SALP presentation and agree with the NRC's overall performance assessments.

We are particularly pleased to have maintained the proposed Category 1 ratings in the functional areas of plant operations, radiological controls, emergency preparedness, and security. We believe the Category 1 rating proposed in the area of maintenance/surveillance is indicative of our commitment to improve in that area.

Entergy Operations, Inc. acknowledges the challenges identified by the NRC in several of the functional areas, and recognizes opportunities for improvement in each of the functional areas. Waterford 3 is committed to achieving "World Class Excellence" and will continue striving for superior ratings in each of the functional SALP areas.

Very truly yours,

RFB/BRL/ssf
