Schedule for Providing Additional Information Related
to NUREG-0737, Item II.D.1, Relief and Safety Valves

In a letter dated February 4, 1985 from Mr. James R. Miller, Chief, Operating Reactors Branch #3, we were requested to provide additional information to supplement our submittals of July 19, 1982, March 15, 1983 and March 14, 1984 related to NUREG-0737, Item II.D.1 implementation.

Westinghouse Electric Corporation has been contacted to provide the requested information. Westinghouse estimates a completion date of July 31, 1985 for a report which fully addresses the NRC Staff request.

Allowing for NSP review of the Westinghouse report, we anticipate submitting the requested information to you by August 15, 1985. Please contact us if this schedule is not satisfactory or if you have any questions related to this topic.
