BEFORE THE ATOMIC SAFETY AND LICENSING BOARD

'85 MAY -2 P12:08

In the Matter of

VIRGINIA ELECTRIC AND POWER CO.

(North Anna Power Station,  
Units 1 and 2)

OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

Docket Nos.

50-338 OLA-1

50-339 OLA-1

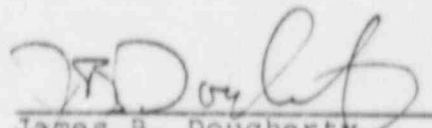

MOTION OF EXTENSION OF TIME

Concerned Citizens of Louisa County respectfully requests that it and all other parties be granted an additional six days in which to submit their prefiled testimony in this proceeding, now due May 3, 1985. The testimony would thus be due, in the hands of the Board, on May 9, 1985. The parties plan to reach agreement on the submission of exhibits by the same date.

Such a delay should not require any postponement of the evidentiary hearing now scheduled to begin May 21, 1985.

Counsel is authorized to state that neither VEPCO nor the NRC Staff oppose the granting of this motion.

Respectfully submitted,

James B. Dougherty  
Counsel for Concerned  
Citizens of Louisa County
