Dear Mr. Adams,

This letter constitutes a request to amend the Reactor Decommissioning Plan to delete the requirement for the QAE/HP to prepare detailed status reports of the technical, budgetary and schedule progress of the decommissioning activities as required in section 3.2.4 of the Plan. This change does not involve a change in the technical specifications incorporated in the Plan nor an unreviewed safety question.

Both the MTL Radiation Control Committee and the Safety Committee have reviewed this request and recommend approval.

If you have any questions concerning this action please contact Peter Cornetta at (617) 923-5225.

Sincerely,

JAMES T. NAUGHTON
