Submission of Revision 29 to Prairie Island Security Plan

Pursuant to 10 CFR Part 50, Section 50.54(p), we are submitting four copies of Revision 29 to the Prairie Island Security Plan. This revision is a complete rewrite of the Security Plan. It deletes obsolete and redundant commitments and statements as appropriate and addresses NUREG 0908 acceptance criteria. Also enclosed is a "synopsis of change" identifying the changes made and referencing the corresponding section of the existing security plan. The intent of the current security plan commitments and statements is retained in this revision. This revision contains no sidebars since it is a complete rewrite of the plan. These changes do not decrease the effectiveness of the Prairie Island Security Plan.

Due to the magnitude of this change and the creation of new implementing procedures, implementation will not take place until 60 days after NRC acceptance.

This revision to the Prairie Island Security Plan contains Safeguards Information as identified by the Commission in 10 CFR Part 73, Section 73.21. The Security Plan revision should not be made available for inspection and should not be placed in the public document room.

Please contact us if you have any questions related to the revision.
