Washington, DC 20555

Gentlemen:

DOCKETS 50-266 AND 50-301
CORRECTED NRC MONTHLY OPERATING REPORTS
POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2

In order to correct errors that have been identified in four previously submitted NRC Monthly Operating Reports, the following Operating Data Reports have been corrected and are attached:

<u>DOCKET NUMBER</u>	<u>REPORTING PERIOD</u>
50-266	May 1992
50-266	June 1992
50-266	July 1992
50-301	June 1992

The corrections were made to Line 18, "Net Electrical Energy Generated" for the three Docket 50-266 reports and to Line 16, "Gross Thermal Energy Generated (MWH)" for the Docket 50-301 report. These inaccuracies have been attributed to personnel errors associated with interpretation of the data. These errors were identified and corrected in August 1992. We have also verified that all Monthly Operating Reports submitted subsequent to July 1992 are correct. Corrective actions taken should preclude recurrence of similar problems in the future. We regret any inconvenience this may have caused.

Please contact us if there are any questions.

Sincerely,

Bob Link
Vice President
Nuclear Power
