Dear Sir:

In accordance with 10 CFR 50.54p, the AFRRI Physical Security Plan has been changed. The changed Plan (reissue no. 2) has been reviewed by the Reactor Facility Director and found to have no decrease in effectiveness. This conclusion was concurred with by the Reactor and Radiation Facility Safety Committee after a review of the changes. Subsequent to that concurrence, the changes were made, effective 2 April 1985.

Enclosed are 12 copies of the complete Plan as reissued, along with a summary of the presentation explaining the changes.

The contact point for information on these matters is the Reactor Facility Director, Mark Moore. He may be contacted at 301-295-1296 or the letterhead address.

NOTE: Both enclosures are protected under 10 CFR 2.790 from public disclosure.

Sincerely,

*James J. Conklin*
