Long Island Lighting Company
(Shoreham Nuclear Power Station, Unit 1)
Docket No. 50-322-OL-4 - Low Power Security

Dear Administrative Judges:

At the April 17 Prehearing Conference LILCO indicated its intent to modify the presently proposed security arrangements for the backup AC power sources at Shoreham for Phases III and IV of low power operation. At that time LILCO believed that those materials could be filed with the Board and parties by the end of April. Completion of the materials describing these modifications, including both a revision to the Physical Security Plan and implementing procedures, has encountered short-term logistic delays; LILCO presently expects to have these materials completed and ready to be served by early next week.

Respectfully submitted,

Donald P. Irwin
