May 3, 1985

Mr. Harold Denton  
Director of Nuclear Reactor Regulation  
Nuclear Regulatory Commission  
Washington, D.C. 20555

Re: Docket #50-602

Dear Mr. Denton:

The University of Texas at Austin is amending the license request dated November 9, 1984 and subsequent letters to relocate the proposed project at an alternate location within the Balcones Research Center Site. Details and features of the amended site location are enclosed.

Movement of the facility location from the southwest to the southeast side of the Bureau of Economic Geology Research and Administration Building is in response to an administrative evaluation of potential research activities related to structures present on the original site. The amended site location is approximately 130 meters from the original site, thus the general features of the site are unchanged.

Mr. Harold Denton  
May 3, 1985  
Page Two

The date projected for completion of project construction is December 31, 1987. This date extends the original date six months to reflect the current projected schedule and allows another six months for project related delays.

Sincerely,

*Thomas L. Bauer*

Thomas L. Bauer
