Re: Perry Nuclear Power Plant, Unit 1  
Docket No. 50-440; License No. NPF-58  
Notification of Amendments to Facility Leases

Dear Sir:

By Amendment No. 2 issued on March 16, 1987, to License No. NPF-58, the NRC authorized Ohio Edison Company to enter into sale and leaseback transactions for the Perry Nuclear Power Plant, Unit 1. As a condition of approval, the Amendment requires prior written notice of any change in, inter alia, the terms or condition of any lease agreements executed as part of the transactions.

Certain participants in these transactions are currently preparing to amend their respective facility leases. The amendments will change the schedules of Basic Rent Percentages, Casualty Values, Special Casualty Values, and Modified Special Casualty Values. These changes are being made for tax purposes. None of the changes affects operation of the plant, prevents or impairs compliance with NRC requirements, or otherwise adversely affects any NRC regulated activity.
