Mr. Richard P. Denise, Director
Division of Resident, Reactor Project
& Engineering Programs
U. S. Nuclear Regulatory Commission
Region IV
611 Ryan Plaza Drive, Suite 1000
Arlington, TX 76011

- References: (1) Docket No. 50-285
(2) Letter OPPD (R. L. Andrews) to NRC (J. M. Taylor)
dated March 15, 1985

Dear Mr. Denise:

Fort Calhoun Station
Physical Security Plan Change

In Reference (2), the District stated that a revised Physical Security Plan (PSP) would be submitted to the NRC on May 1, 1985. This review was comprehensive and complete. As a result of this review, changes have been proposed to the PSP. These PSP changes reflect enhancements or clarifications to the PSP. The changes that have been made to the PSP are of a type that would normally be submitted pursuant to 10 CFR 50.54(p). Based on the number and the extent of the changes made to the PSP, it was agreed in a telephone call between the District and NRC Region IV personnel on April 30, 1985, that a draft working copy of the revised PSP would be submitted to Region IV for Commission review. It was also stated that the District would meet with Region IV, if necessary, to discuss the PSP changes prior to a formal 10 CFR 54(p) submittal. The District believes this approach will allow an exchange of information which would help expedite NRC review and final concurrence.
