Reference 1: Letter DCP/NRC0585, "WCAPs 14695, 14694, 14396, 14690, 14655, and
14401 Related to DSER Chapter 18 and NUREG-0711 Elements," dated

Dear Mr. Quay:

Please find attached ten copies of WCAP-14701, "Methodology and Results of Defining Evaluation Issues for the AP600 Human System Interface Design Test Program." This WCAP was promised in Reference 1 and completes Westinghouse activities for NUREG 0711 Element 10. Westinghouse expects the NRC to review this WCAP in support of a timely AP600 FDA.

To complete the Westinghouse DSER Chapter 18 activities which are not related to the ITAACs, WCAPs 14645, 14651, and 14644 will be revised by September 30, 1996. Their issuance will complete Westinghouse activities for NUREG 0711 Elements 2, 3, 4, and 6.

Please contact Robin K. Nydes at (412) 374-4125 if you have any questions regarding this transmittal.
