Subject: Revisions and Updates to the Oregon State University TRIGA Reactor (OSTR)  
Physical Security Plan Submitted Under the Provisions of 10 CFR 50.54(p); License  
No. R-106, Docket No. 50-243.

Gentlemen:

Oregon State University wishes to submit revisions and updates to the OSTR Physical Security Plan in accordance with the provisions of 10 CFR 50.54(p).

In keeping with the instructions in USNRC generic letters 84-18 and 82-39, specific information regarding the security plan and the 10 CFR 50.54(p) changes is included as a separate enclosure (Enclosure 1) to this letter. The modifications are of a minor nature, however the opportunity is being taken to reprint the whole plan (Enclosure 2) to change the font, eliminate inserted pages and generally improve its appearance.

All changes and updates to the plan have been reviewed by the OSTR physical security staff and approved by the Reactor Operations Committee. It was concluded by both groups that the safeguards effectiveness of the OSTR physical security program is not reduced by adoption of the changes. On the contrary, it is our position that the OSTR physical security program will be improved by incorporation of the current revisions.

If there are questions regarding the information we have submitted, please let me know. In accordance with Section 2.790(d) of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, and in accordance with any other applicable parts of the NRC's regulations, we hereby request that Enclosure 1 and Enclosure 2, and this letter when it is attached to either or both of these enclosures, be withheld from public disclosure.

Thank you for your consideration of these matters.

Yours sincerely,

A handwritten signature in dark ink, appearing to read "Brian Dodd", with a stylized flourish at the end.

Brian Dodd, Ph.D.  
Director
