Subject: Quad Cities Nuclear Station Corner Room Steel Modification
NRC Docket No. 50-254 and 50-265

Reference: 1) J. Hosmer to J. Lieberman letter dated July 12, 1996 (Response to Notice of Violation)

The purpose of this letter is to document the modification completion for the Residual Heat Removal Corner Room Steel as stated to the NRC in Reference 1.

All physical work required to complete the modifications and corrections have been completed on both units, and the station is now in conformance with the station's Final Safety Analysis Report (FSAR). Final design drawings for station records are in the process of being issued.

Any questions concerning this submittal can be made to Charles Paerson, Regulatory Affairs Manager, at (309) 654-2241 extension 3602.

Respectfully,
