Dear Ms. Adensam:

In the Matter of) Docket Nos. 50-327
Tennessee Valley Authority) 50-328

By your March 25, 1985 letter to H. G. Parris, you requested additional information on our Sequoyah Nuclear Plant regarding NUREG-0737, Item II.D.1, "Performance Testing of Reactor Relief and Safety Valves." As discussed with C. Stahle of your staff in a telephone conversation on April 30, 1985, additional time is needed to provide this information because of our previous participation in the EPRI test program. Accordingly, we plan to provide this information on or before July 1, 1985.

If you have any questions concerning this matter, please get in touch with Jerry Wills at FTS 858-2683.

Very truly yours,
