Provost and Vice Chancellor
for Academic Affairs

June 3, 1996

Theodore S. Michaels
Senior Project Manager
Non-Power Reactors and Decommissioning
Project Directorate
Division of Reactor Program Management
Office of Nuclear Reactor Regulation
Washington, DC 20555-0001

Dear Dr. Michaels,

We have responded to the recent inspection recommendation of the University of Massachusetts Lowell research reactor in the following manner. As of June 1, 1996, we will appoint a staff member to take on the responsibilities of a health physics technician on a full-time basis. This move is made in response to the Radiation Safety Committee at the University of Massachusetts Lowell and USNRC studies which have specified the need for two permanent positions in the radiation safety office.

If I can be of further help, please don't hesitate to call (508) 934-2295).

Yours truly,

Sukant Tripathy
Provost

To: Gunter Kegel, Radiation Laboratory Director
From: Sukant Tripathy, Vice Chancellor for Academic Affairs
Subject: Nuclear Radiation Chemist Position

Effective June 1, 1996 the Nuclear Radiation Chemist position will be transferred into the Radiation Safety Office. This move is being made in response to the Radiation Safety Committee and USNRC studies which have specified the need for two permanent positions in the Radiation Safety Office.

The position description for the Nuclear Radiation Chemist position has been modified to include new duties in the Radiation Safety Office.
