EDWARD F. FEIGHAN

18TH DISTRICT, OHIO
August 10, 1984

Mr. Carlton Kammerer
Director, Off. of Cong. Affairs
USNRC

Dear Mr. Carlton:

A number of my constituents have requested transcripts of meetings held in Washington between NRC staff members and Cleveland Electric Illuminating Co. consultants regarding the Perry Nuclear Power Plant. I am particularly interested in obtaining transcripts of meetings held in Washington on March 2, 1984 and on June 19, 1984. I also respectfully request that transcripts of all further meetings between CEI and the NRC be available to the public.

I strongly believe that the public has a right to a full accounting of the meetings between CEI and Perry. The Ohio Community has made a huge investment in the Perry Nuclear Power Plant, and plant safety is a crucial concern of area residents due to the increasing publicity of accidents and malfunctions at nuclear sites nationwide.

Thank you for your interest and concern on this important matter.

Sincerely,

Edward F. Feighan
