Edwin I. Hatch Nuclear Plant
Revision to Quality Assurance Program

Gentlemen:

In accordance with the provisions of 10 CFR 50.54(a)(3), Georgia Power Company (GPC) hereby proposes a revision to the Plant Hatch Quality Assurance (QA) Program as described in Chapter 17 of the Unit 2 Final Safety Analysis Report (FSAR). The proposed revision addresses the Plant Review Board's review of safety-related plant changes. Enclosure 1 provides a detailed description of the proposed change to Unit 2 FSAR section 17.2 and GPC's justification for making the change. Enclosure 2 provides the corresponding marked-up FSAR pages.

Based on the guidance of 10 CFR 50.54(a)(3)(iv), GPC understands the enclosed proposed change will be regarded as accepted by the Commission upon receipt of a letter to that effect from the appropriate reviewing office, or 60 days following submittal to the Commission, whichever occurs first.

Should you have any questions in this regard, please contact this office.

Sincerely,

J. T. Beckham, Jr.

OCV/eb
