Subject: McGuire Nuclear Station, Units 1 and 2
Docket Nos. 50-369 and 50-370
Proposed Technical Specification Change TS 4.2.2.2.c.2
Change to the Axial Flux Difference (AFD) Equations

Gentlemen:

On December 12, 1995, McGuire Nuclear Station submitted a proposed Technical Specification Amendment regarding change to the Axial Flux Difference (AFD) Equations to duplicate an amendment previously approved for Catawba Nuclear Station. In that proposed amendment, Technical Specification Amendment 130/112 was erroneously referenced as the amendment that first introduced the incorrect AFD Equation. The actual amendment that introduced the AFD Equation was 128/110, as confirmed via the phone conversation between Victor Nerses (NRC) and McGuire personnel on May 30, 1996.

If there are any questions concerning this matter, please contact Virginia Owen at (704) 875-5113.

Very truly yours,

T. C. McMeekin

Vice President, McGuire Nuclear Station
