Dear Mr. Keppler:

DOCKET NOS. 50-266 AND 50-301
SYSTEMATIC ASSESSMENT OF LICENSEE PERFORMANCE
POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2

Thank you for your letter of April 12, 1985 which responded to our written comments on the Systematic Assessment of Licensee Performance (SALP) for our Point Beach Nuclear Plant, as provided with my letter dated January 18, 1985. We were disappointed that our comments supporting upgrading of the SALP rating in several of the evaluation categories did not result in any changes to the category ratings. On the other hand, we were pleased to note your revision of the trend assignment in several categories to indicate improvements in those assessment areas.

We look forward to the next SALP evaluation and report. We believe our performance and operating record will justify further improvements in our SALP rating for the Point Beach Nuclear Plant.

Very truly yours,

Vice President-Nuclear Power

C. W. Fay
